

MXK-20

Lazer Star MX Light Kit

WARNING: BATTERY IS NOT CHARGED, YOU MUST CHARGE BATTERY BEFORE USE. (5 Hour Approximate charge time) **BATTERY PROVIDES 2 HOURS OF LIGHT.** (lights will begin to dim about 20 minutes before battery runs out)

INCLUDES:

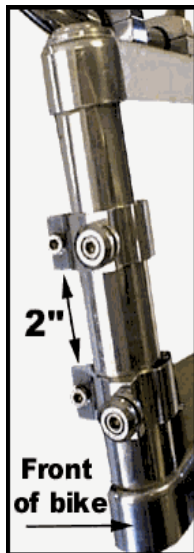

- 4 Fork Tube Brackets
- 1 110 Wall Charger
- 1 Lead Acid Battery
- 1 Number plate
- 2 Lazer Star 'Micro B' 20watt Halogen lights

TOOLS REQUIRED:

3/16 ALLEN WRENCH

Your new Lazer Star MX light kit is designed for night use **ONLY**, it is highly recommended you remove from motorcycle during the day. **Disconnect lights from battery when not in use.** You may leave fork clamps on bike at all times.

INSTRUCTIONS:

1. Install the four fork clamps, approximately 2" apart. Tighten them, then loosen them. (see Figure 1)
2. Loosen the four bolts that are to hold the plate to the fork clamps, and slide the mounting plates onto the forks, make sure you slide the top one into position first.
3. Adjust the height, angle, and alignment of the number plate and tighten down the bolts that hold the plates to the fork clamps, then the clamps themselves.

WARNING: This is a quick disconnect kit. Always tighten down all mounting bolts after removing or installing the number plate, every time.

The battery provided has no memory and can be recharged before total discharge occurs. Make sure battery is fully inserted into sleeve before use.

LIMITED WARRANTY:

Your Lazer Star MX Kit has a 90-day warranty on plastic number plate, bulbs, wires, and battery. A lifetime warranty on Light housings and mounting bolts. Warranty is invalid if damages occur due to crashing.
